Report on industrial visit GVG Paper mills Pvt Ltd. (04.1.2024)

On 30th September 2024, I B. Com A & B from Periyar Maniammai Institute of science and technology visited **GVG Paper Mills Pvt Ltd.**, a well-established paper manufacturing company. The visit aimed to provide practical exposure to the paper production process and familiarize the participants with the operational, technological, and sustainability practices of an industrial paper mill.

About GVG Paper Mills (P). Ltd.:

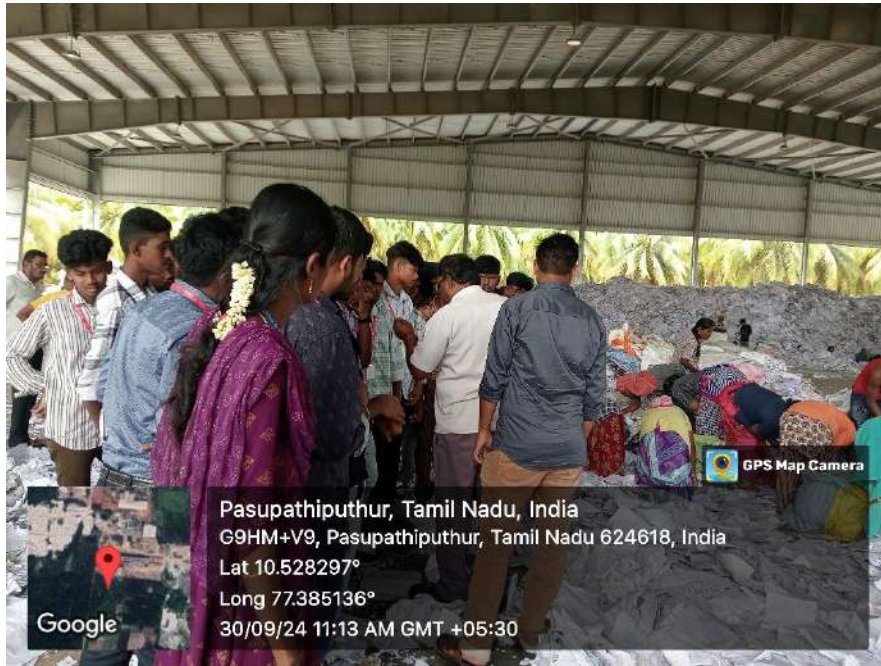

S. Madhan (Deputy Manager) was represented for GVG Paper Mills Pvt Ltd. and He explained their Industrial sources. It is a leading manufacturer of high-quality paper products such as Kraft paper, recycled paper, and specialty papers. The company prides itself on adopting eco-friendly practices, utilizing modern technology, and focusing on sustainable production. The mill is committed to maintaining high industry standards while producing paper products for various industries, including packaging and printing.

Overview of the Visit:

The visit began with a detailed introduction by the company's representatives, explaining the mill's history, operations, and commitment to quality and sustainability. After the introductory session, we were taken on a guided tour of the production facility, where we observed various stages of paper production

The industrial visit to GVG Paper Mills Pvt Ltd. was an enriching and informative experience. It provided us with practical insights into the paper manufacturing process and demonstrated how modern technologies and sustainability practices are integrated into daily operations. The visit also highlighted the challenges faced by the paper industry and how companies like GVG Paper Mills continue to innovate to stay competitive. Overall, it was a highly educational experience that bridged the gap between theory and real-world industrial practices.

OUTCOME OF THE PROGRAMME:

The industrial visit to GVG Paper Mills provided students with valuable practical exposure, enhancing their understanding of key management concepts. They observed the nature, scope, functions, and approaches of management in a real-world manufacturing setup, gaining insights into production planning, resource allocation, and strategic decision-making. The visit also helped them interpret decision-making processes and understand how managerial choices impact efficiency, cost control, and quality management. Students explored the organizational structure, workflow, and various organizing techniques used in the industry while examining leadership, coordination, and quality control mechanisms essential for smooth operations. Additionally, they recognized the importance of ethical business practices, sustainability initiatives, and corporate responsibility in the paper industry. This hands-on experience bridged the gap between theoretical knowledge and practical application, reinforcing their learning outcomes effectively.
