| <p>The life skill workshop on “Beyond the Resume: Evaluating Life Skills for Real-World Employability” emphasized that employers today look beyond academic degrees and technical qualifications to assess essential life skills such as communication, adaptability, teamwork, and emotional intelligence. The speaker highlighted how platforms like LinkedIn have become powerful tools to showcase these competencies through skill endorsements, recommendations, and real project experiences. He encouraged students to use smart techniques—like personal branding, active networking, and continuous learning through LinkedIn Learning—to demonstrate their professional growth and employability. The session concluded by reminding students that success in the modern workplace depends not just on what’s written in the resume, but on how effectively one applies life skills to real-world challenges and presents them authentically online.</p> | | <p align="center">154</p> |
