### FACULTY OF COMPUTING SCIENCES AND ENGINEERING

### DEPARTMENT OF COMPUTER SCIENCE AND APPLICATIONS

The Department of Computer Science and Applications is planned to organize the webinar on Data Science during this COVID'19 lockdown period to the students with an objective of enriching the knowledge and skills for their future.

## Webinar on **Data Science**

### ORGANIZED BY

Department of

### Computer Science and Applications

### Resource Person:

**Dr. R. Rajini Surendranath**  
Head & Associate Professor,  
Department of Computer Science  
**Guru Nanak College, Chennai**

**Dr. R. Rajini Surendranath** is working as Head of the Department of Computer Science at Guru Nanak College, Chennai. She has 20 years of Teaching experience, and published more than 10 research papers. Her area of research interest is Data Communication.

**27<sup>th</sup> June, 2020, at 2.00 pm**

Thanjavur - 613 403, Tamil Nadu, India.

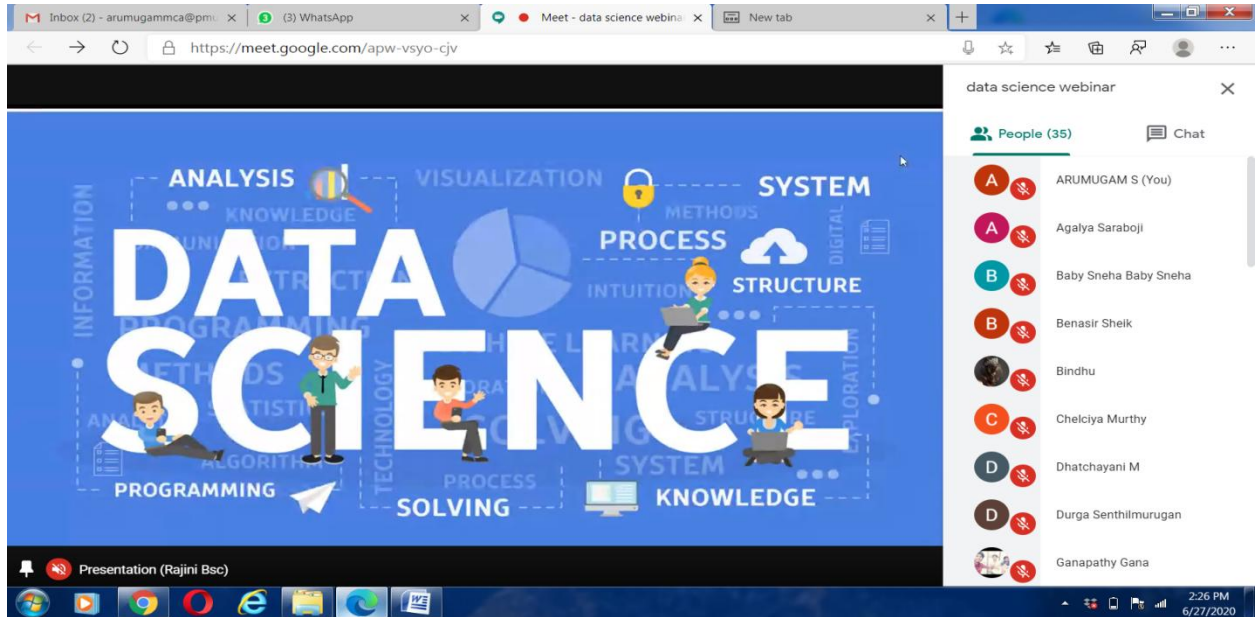

Title : **Data Science**

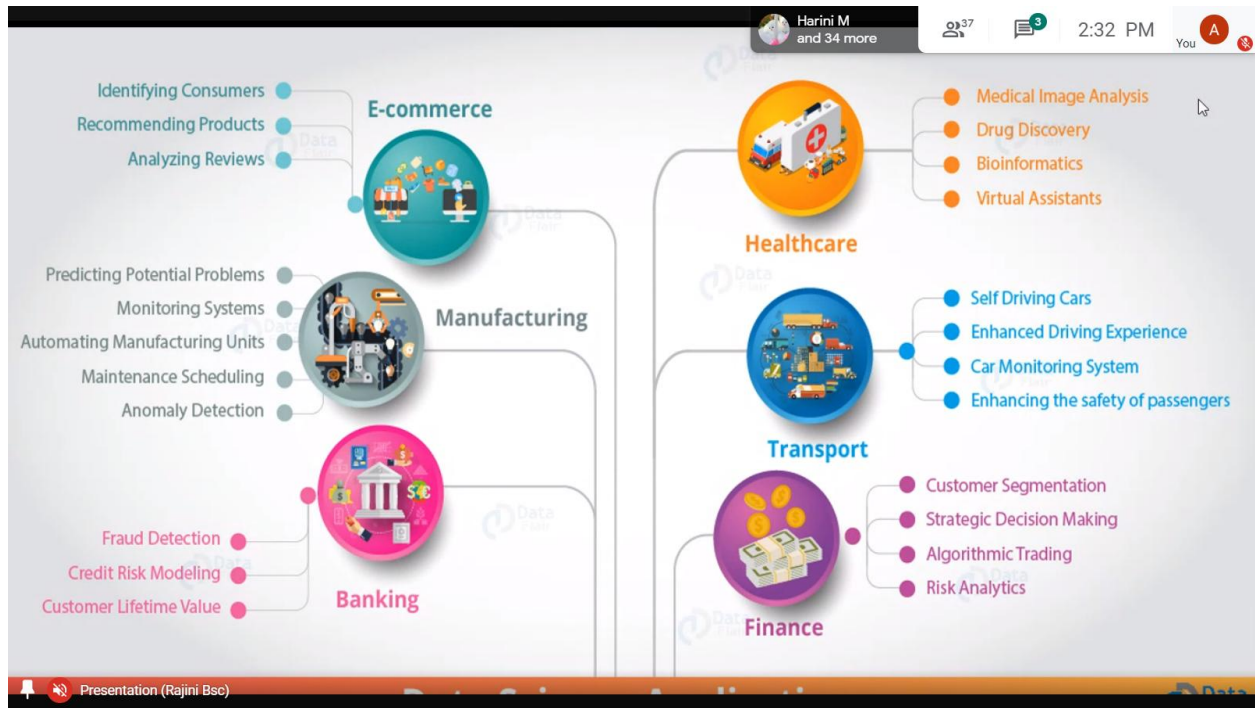

Date : **27.06.2020 Time : 2-3 pm**

Presented by : **Dr.R.Rajini Surendranath**, Head & Asso.Prof, Gurunanak College, Chennai

Coordinated by: **Mr.S.Arumugam, Ms.P.Premavagini and Ms.K.Nandhini**

No. of students attended and certificates issued : **93**

Presentation (Rajini Bsc)

ML provides statistical tool to explore the data.

Three approaches of ML

- 1) **Supervised** (Past Labeled data)
- 2) **Unsupervised** (output is not known)  
Clustering techniques used.
- 3) **Reinforcement Learning or semi-supervised Learning** (partially labeled and partially not labelled).

In DL multi neural network is used. Techniques are Artificial Neural Network (for numerical), Convolutional Neural Network (for images), Recurrent Neural Network (for time series data).

```

graph TD
    Discovery((Discovery)) --> DataPrep((Data Preparation))
    DataPrep --> ModelPlanning((Model Planning))
    ModelPlanning --> ModelBuilding((Model Building))
    ModelBuilding --> Operation((Operation))
    Operation --> CommunicateResults((Communicate Results))
    CommunicateResults --> Discovery
  
```

Presentation (Rajini Bsc)

## Types of Machine Learning

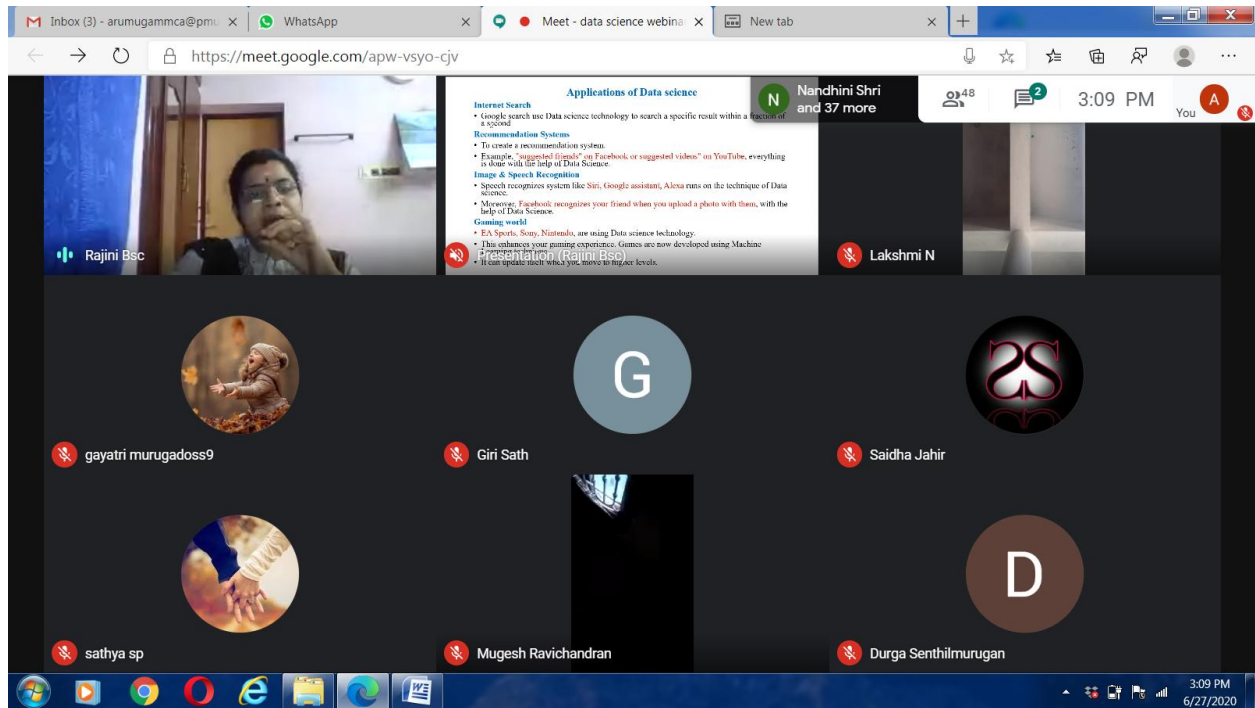

**Regression** – Looking for a statistical relationship across variables that may give us an estimate of a particular outcome.

**Classification** – Similar to regression but looking for separations in the data given predefined classes. (Supervised)

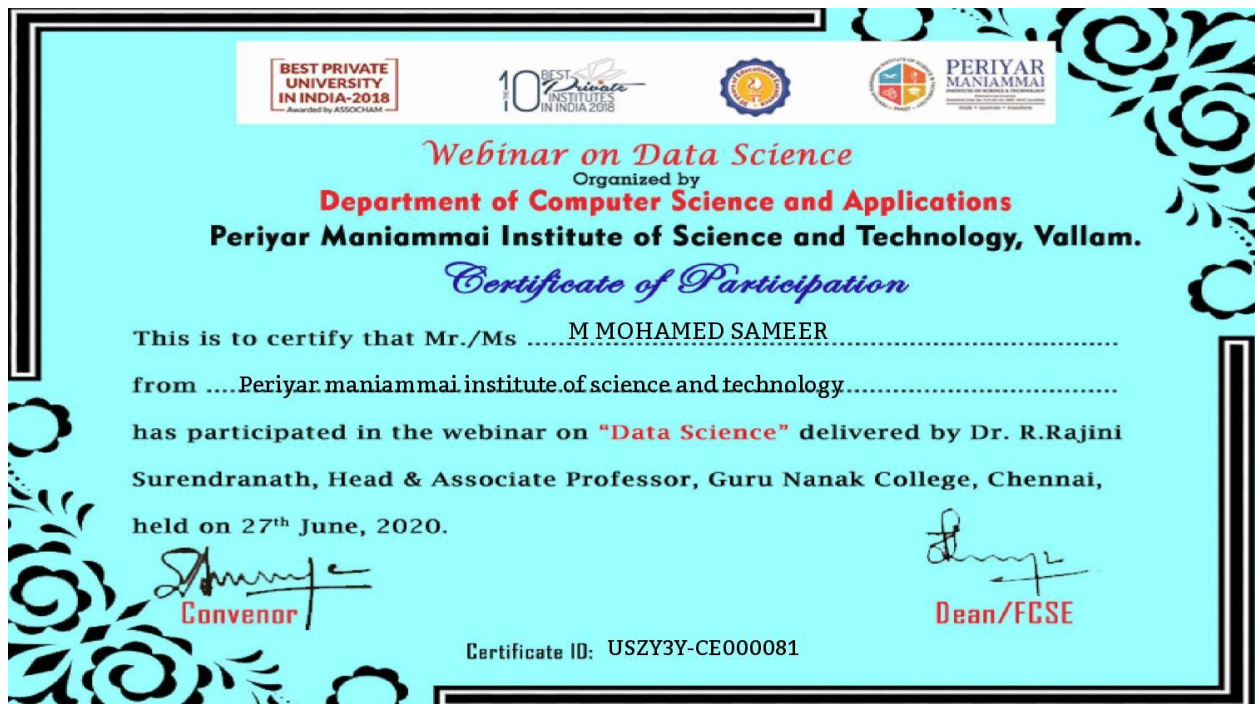

**Clustering** – Do not have predefined classes but trying to find groups or sets based upon data at hand. (Unsupervised)

**Anomaly Detection** – Identification of outliers based upon expected ranges of data.

2:54 PM 6/27/2020

## Certificates issued to the students

Vote of thanks proposed by : **Ms.S.Ragavi, III BCA “B” Sec.**
