Current Trends in Nanotechnology

What is the future for nanotechnology?

In the future, nanotechnology coatings or additives will even have the potential to allow materials to "heal" when damaged or worn. For example, dispersing nano particles throughout a material means that they can migrate to fill in any cracks that appear.

What are the disadvantages of nanotechnology?

Potential disadvantages include eco

Vocabulary building app (Knudge) for practice

Dear students I would like you to download this wonderful and highly useful app that I have been using to build my vocabulary.

I would suggest that you use it every day for 5mins and you will become aware to various words in English. Having a strong vocabulary is helpful for your exams as well.

It is recommended that you start from the beginner's course and only those who are confident in their language ability choose intermediate level when you join.

I'm saying this because the higher levels are much more challenging.

For today's assignment I would like you to try out various games that are there take a screenshot of whatever score you get and upload it to this assignment before 12:40 afternoon. Then return to google meet for attendance. I will be checking your participation so be active. Have fun learning vocabulary 👍

Top Tips for writing

1. Some essay questions ask you to discuss a **problem** (which may involve explaining the **causes** of it) and suggest **solutions**. Look carefully at the wording of the question so you know what to write about.
2. Start your essay by paraphrasing the question in your own words. Avoid copying the question. Then, complete the introduction by giving a one-sentence overview of the essay (*This essay will examine ...*).
3. Avoid listing many different causes and solutions. It's better to discuss two or three causes and solutions and develop them with explanation and examples. Here are two possible ways to organise them:
a. Put all the causes in one paragraph and all the solutions in another.
b. Describe one cause and a related solution in each paragraph.
4. Use linkers and verbs to show causes and effects.
5. To suggest solutions, use conditional sentences and modal verbs.

Student work

Dear students I need you to download this app called sentence master.

This is a really fun way of improving your sentence formation.

You need to open the single player mode and click on Beginner level and proceed.

Try your best to reach 7% in beginner level in the first hour.

Keep playing till 9:40am then take screenshot of your score % and upload it here.

Below I have attached pics about the instructions

You need to submit this assignment before for me to record your attendance today.

Attendance will be considered only if you participate in this activity
