ABOUT THE UNIVERSITY

Periyar maniammai university is one of the premier universities in India which strives for excellence in training aspiring candidates into competent professionals imbibed with ethical values. It has worldclass infrastructure spread over 216 acres with digital library,advanced computer laboratory with high speed broadband internet access and Wi-Fi connectivity. The Eco friendly campus keeps the environment clean and strives to be a zero carbon zone. solid waste management is done by bioremediation. It is an endeavor to fulfill the dreams of our mentor **Thanthai Periyar** and **Annai Maniammai** the university is dedicated to its social responsibilities for transforming students from different parts of India into stalwarts by igniting their hidden talents.

ABOUT THE DEPARTMENT

The M.Sc. software engineering department(5 year integrated)of this university was started in the year 2001.from the academic year 2008-09 onwards the periyar maniammai university has equipped this department with a new syllabus and curriculum of its own. M.Sc software engineering is an industry focused course,after the completion of the course candidates are eligible to pursue M.E(CSE/SE) or Ph.D degree or academic/research career.

ABOUT THE LOCATION

PERIYAR MANIAMMAI UNIVERSITY is situated at 10 km towards west from Thanjavur, and 45 km on the east from Tiruchirapalli and is easily accessible by road, rail air.

ABOUT THE WORKSHOP

Introduction to Mobile Application Development

Introduction to Android Studio and Google Material Design

Building the Application Framework

WORKSHOP HIGHLIGHTS

- Learn & Interact with jas 5 xml and get to know basics of Android Applications.
- Receive an unparalleled education on the art of building android applications.
- Power point presentation, Live Demos, Interactive Question & Answer sessions and Comprehensive material.
- Participants will be provided course CD and workshop kit.
- Participation certificate will be provided to all participants.

INTERNATIONAL CONFERENCE ON
EMERGING TRENDS IN ENGINEERING , SCIENCE & SUSTAINABLE TECHNOLOGIES
February 20 & 21 - 2017
BACKGROUND
Periyar Maniammai University (PMU) at Vallam, Thanjavur is named after the great social reformer and philanthropist of the 20th century, Thanthai Periyar. PMU has its reputation as the first women's Engineering college of the world and nearly 4500 women engineering graduates were produced during the past 20 years.
PMU has various in-house built in facilities such as Recycling, Rain Water Harvesting, e-Governance, e-Learning, Bioreactor, Biofuel Synthesis and Characterization, Biosensor Development, Lead Biomolecules Synthesis, Renewable Energy, Automation Labs, Biomass Utilization, Waste Recycling, ICT Infra, Periyar PURA (Providing Urban Amenities in Rural Areas), and Technology Business Incubator. In today's trend the impact of technology driven growth has affected all sectors. International Conference on Emerging Trends in Engineering, Science and Sustainable Technologies will bring together various stakeholders from Academia, Industries, Government and Non-Government organizations at the International level to explore the rapid innovations in the field of engineering and sciences and their contributions for the betterment of the society. The conference will provide as a forum for sharing of experience and develop a better understanding of technical, financial and social changes required for sustainable growth in today's rapidly changing world.
OBJECTIVES
• To examine the impact of energy and environmental technology on the society
• To explore the innovative solutions in the field of renewable energy towards building sustainableenvironments
• To develop community participation through innovations and social entrepreneurship
• To examine the impact of modern construction technology in today's construction scenario.
• To explore the escalating advancements in Manufacturing technology and Materials engineering
CONFERENCE THEMES
Renewable Energy Technologies
• Internet of Things (IoT) for Energy Management
• Solar Energy
• Bio Energy
• Wind Energy
• Hybrid Systems
• Energy Storage
